

KUDERELLA ABHILASH

7995355113 abhiabhilash26609@gmail.com linkedin.com/in/abhi0524 github.com/abhi69-maker

Summary

ECE graduate (May 2026) with two deployed full-stack projects — a Spring Boot banking app with Spring Security and a React-based employee system with Dockerized backend. Backed by industry experience through a Java internship at OctaNet Services and an AI/ML internship at Crane's Varsity. Targeting Java Developer roles where backend development and REST API design are core responsibilities.

Education

Vignan's Institute of Information Technology
B.Tech in Electronics and Communication Engineering

Nov 2022 – May 2026
CGPA: 7.75

Sri Chaitanya Junior College
Intermediate – MPC

2020 – 2022
Marks: 900/1000

Experience

OctaNet Services Pvt. Ltd.

Feb 2026 – Apr 2026

Full Stack Java Developer Intern

Remote

- Developed web applications using Java, Spring MVC, HTML5, CSS3, JavaScript, and Bootstrap.
- Designed RESTful APIs with full CRUD support and managed source code using Git version control.

Crane's Varsity

Jun 2025 – Jul 2025

Data Science & AI/ML Intern

Remote

- Cleaned, analyzed, and visualized real-world datasets using Python and Pandas.
- Trained classification and regression models for healthcare outcome prediction; evaluated model performance using accuracy metrics.

Projects

Employee Management System | *Java, Spring Boot, React, MySQL, REST API, Docker*

GitHub | Live

- Engineered a full-stack employee management system with Spring Boot REST backend and React frontend.
- Exposed REST APIs for CRUD operations — create, read, update, and delete.
- Configured MySQL for relational storage, Docker for containerization, and deployed frontend on Vercel.
- Applied Spring Data JPA for ORM and Axios in React for API consumption with client-side error handling.

Online Banking Web Application | *Java, Spring Boot, Spring Security, MySQL, Thymeleaf, Docker*

GitHub | Live

- Engineered a full-stack banking application using Spring Boot 3, Thymeleaf, and MySQL.
- Secured the application with Spring Security — implemented login, session management, and role-based access.
- Persisted account and transaction data using Spring Data JPA with a normalized MySQL schema.
- Containerized with Docker and deployed on Railway for live public access.

Technical Skills

Languages: C, C++, Java, Python, HTML5, CSS3, JavaScript

Frameworks & Tools: Spring Boot, Spring Security, React, Hibernate, REST API, Maven, Bootstrap, Git, Postman

Database: MySQL, MongoDB

Core Concepts: OOP, Data Structures, MVC, SOLID Principles, REST Architecture, Authentication & Authorization

Certifications

Artificial Intelligence Fundamentals – IBM SkillsBuild

Web Development Fundamentals – IBM SkillsBuild

Object Oriented Programming – TUF (Take U Forward)

Problem Solving Through Programming in C – NPTEL, IIT Kharagpur

Solutions Architecture Virtual Experience – Forage (AWS)

Achievements

2nd Prize – Circuitrix – VISTA 2025, Vignan's Institute of Information Technology

Paper Presentation – ICRAE Conference (Under Review)

Google Hackathon – Built a working prototype in a team-based hackathon at GITAM University

DSA – Solved 100+ problems across arrays, strings, and recursion on TUF sheet
